FLEX Innovation - Made in Germany

Innovation - Made in Germany

FLEX manufactures top performance, quality power tools. We continuously explore new technological frontiers and implement designs that increase the lifespan and performance of each tool. We also focus on optimizing the handling of each tool and increasing the overall comfort and productivity of the end user. Everything we do is based on people and their work and this leads to solutions.

Your satisfaction is our guiding principle

All professionals who have worked with **FLEX** power tools recognize what is truly important: well thought out design and proven quality solutions.

FLEX will do everything to ensure you quality from our continuous product improvements. Whether you are grinding, cutting, sawing, drilling or polishing, our ultimate objective is your complete satisfaction.

FLEX Electronics

FLEX motors are designed with the latest technology. **FLEX** electronics include unique features such as soft start, RPM pre-setting, RPM cruise control, overload protection and heat sensitive temperature sensors to prevent the machine from overheating in case of extreme workloads.

All **FLEX** electric power tools feature spring loaded **FLEX** Longlife™ carbon brushes. When the brushes start to wear down, a tension spring is released pushing the brushes away from the armature, resulting in an overall longer life of the product.

All **FLEX** electric power tools also feature the **FLEX** advanced airflow system, where cooling air is drawn in at the rear of the machine and blown forward through a specially designed air chamber, before exiting the machine in the front.

New Powder Coating Operation for Magnetic Fields

The Most Innovative Technique On The Market

The new FLEX powder coating process for magnetic fields offers an important advantage by prolonging the longevity of FLEX machine motors.

Powder coating is a process that offers the best possible protection against abrasive elements. This is achieved by covering the coils in a uniform protective coating. Air is blown through the bottom of a container holding powdered plastic. The powder is held in suspension inside the container and behaves similar to a liquid. A magnetic field is dipped into the container where the plastic powder melts onto the pre-heated coils. The metal packet is not affected.

The new FLEX plant has 12 stations which hang from a continuous belt. After loading and connecting the magnetic field to the heating element, the process of heating, baking, coating, cleaning, hardening and cooling starts automatically. The plant is completely enclosed and has its own air extraction system. The powder feed is fully automatic. We use bondable enameled wire for the coils, which allows for the baking process, and guarantees a stable geometry of the coil head.

Natural Stone and Concrete

Leading through High Quality Performance

Natural stone has its own laws. They call for special experts. These experts are able to read the nuances and colors in the stone. They can recognize the unique masterpiece that a completely structured piece of work can evolve into. The experts know that good work also requires good tools.

For over 80 years FLEX has been the competent and innovative partner for working with natural stone. Over time a comprehensive range of machines was developed in close co-operation with experienced stone masons. This resulted in a product range that sets the standard in every aspect, with features such as robustness and reliability, handling, ease of maintenance and - above all - safety of operation under wet conditions.

The long-time competence of FLEX also includes the knowledge that FLEX engineers have about the nature of stone, its characteristics, and its sensitivities. That is why a FLEX machine does not damage or soil the valuable "natural stone" raw material, but rather refines it – in a way a steadfast relationship ought to be. This allows the user to do perfect work.

FLEX is the world authority for WET grinders and polishers for natural stone. Water serves two purposes in the grinding/polishing of natural stone:

- to bind the granite dust into a slurry
- to act as an evenly distributed film of molecules sandwiched between the grinder/polishing head and the natural stone.

This hydroplaning results in a smooth surface treatment and extends the life usage of the diamond abrasives that are used with the grinders/polishers. All FLEX WET grinders and polishers are equipped with a ground fault circuit interrupter (GFCI) to ensure safe operation in wet environments.

Natural Stone and Concrete

Wet Polishers for Natural Stone and Concrete

LE 12-3 100 WET

375.241

Variable Speed 5" Wet Polisher

LE 12-3 100 WET has a brass quick fit connector for easy connection to a 1/2" water hose. Water feed and flow control are fitted under the motor housing. Extra powerful 9.3 amp motor with high torque for superior applications. Softstart, over load protection, and techogenerator constant speed control. Three jet nozzle can be removed to give one central water jet.

5" Variable Speed Wet Polisher

SPECIFICATIONS	LE 12-3 100 WET
Max. disc diameter	5"
Speed, without load	1,200-3,700 RPM
Power input	9.3 AMP
Weight	5.3 lbs

L 12-3 100 WET

378.658

Single Speed 5" Wet Polisher

SPECIFICATIONS	L 12-3 100 WET
Max. disc diameter	5"
Speed, without load	3,700 RPM
Power input	9.3 AMP
Weight	5.3 lbs

ADVANTAGES AT A GLANCE

ADDITIONALLY FOR LE 12-3 100 WET AND L 12-3 100 WET

- Dust protected switch increases functional reliability and longevity
- GFCI-Cable safety switch is integrated in the cable for safe working
- Bail handle for a firm grip even when working vertically
- Powder coated magnetic field protects against abrasive dust and rust

LW 1503

355.046

Compact 5" WET polisher with central water feed

LW 1503 features a new water disbursement nozzle. Brush Cap Guard protects brushes from water. New and improved GFCI cord. It is a compact, but powerful workhorse. Due to its light weight and portability, this product has become the standard for all WET polishers. The LW 1503 is frequently used to polish surfaces and edges of natural stone (sink holes, counter top edges, and other small stone surfaces).

Velcro™ backing pads and diamond resin polishing pads are to be purchased separately.

SPECIFICATIONS	LW 1503
Max. disc diameter	5"
Speed, without load	3,700 RPM
Power input	7.4 AMP
Weight	4.4 lbs

STANDARD EQUIPMENT

1 bail handle	236.934
1 open-ended wrench 17 mm	106.461
1 GFCI operator protection circuit breaker in cable	357.545

ADDITIONALLY FOR LW 1503

- Central water feed for wet grinding of granite and marble
- GFCI operator protector circuit breaker: integrated in cord
- Quality shut-off carbon brushes: protects the motor against damage
- Wet polishing with Velcro™ diamond polishing system

Sanding discs/polishing pads are to be purchased separately.

LW 1509

288.896

This FLEX WET grinder is a true powerhouse

This compact 4-1/2" high speed WET grinder is designed for maximum material removal of concrete or natural stone. With its 8,300 RPM and 7.8 AMP motor, it is the fastest WET grinder in the market. It is intended for all heavy duty stone grinding applications (bulk material removal, edge breaking, coarse grinding of uneven surfaces and polish preparation work).

Note: The LW1509 is not intended for use with Diamond Cup Wheels.

SPECIFICATIONS	LW 1509
Max. disc diameter	4-1/2"
Speed, without load	8,300 RPM
Power input	7.1 AMP
Weight	4.8 lbs

STANDARD EQUIPMENT

1 bail handle	236.934
1 open-ended wrench 17 mm	106.461
1 GFCI operator protection circuit breaker in cable	357.545
1 splash guard	289.183

ADDITIONALLY FOR LW 1509

- Central and external water feed
- 360° adjustable aluminum safety guard with integrated rubber splash skirt
- Dual water feed
- GFCI-Cable safety switch is integrated in the cable for safe working

Wet Grinders - Polishers for Natural Stone and Concrete

LCP 1703 VR

ACCESSORIES AVAILABLE
(SOLD SEPARATELY)

650.100

651.200

Planetary Gear/Belt Driven 3-Headed Polisher

The perfect machine for the perfect finish on concrete, granite and marble. Rugged, reliable hand-operated 12" platform made of Duralin, a hardened, anodized aluminum. Delivers the perfect speed for high performance grinding, honing and polishing of concrete, granite and marble. Belt driven design for quieter operation and less heat buildup. Slurry Guard™ brush design for ease of movement on all surfaces. Center water feed for wet applications can be shut off for efficient dry operation.

Uses 3" to 5" diamond polishing pads.

SPECIFICATIONS	LCP 1703 VR
Tool Weight	29 lbs.
Shipping Weight	32 lbs.
Motor	110V/60Hz
	10 Amp
	GFCI Protected
Driver Speed	1,100-3,400 RPM
Platen Speed	600-1,930 RPM
Platform Speed	157-481 RPM

- Uses 3" to 5" diamond polishing pads

CONCRETE POLISHING PADS IN 5" X 3MM AND 5" X 5.8MM SIZES

- Unique multi-channel segment design allows for superior grinding and honing
- "Top of the Line" 5" x 5.8MM construction outlasts the competition
- High quality Diamond Resin ensures the best possible results
- Standard Velcro® backing for easy and quick pad changes
- Available in 50, 100, 200, 400, 800, 1500 and 3,000 grit.

Natural Stone and Concrete

Wet Polishers for Natural Stone and Concrete

PLW 923 S

355.895

4" Pneumatic Air Stone Sander/Polisher

Flex is proud to introduce a revolutionary new Air Stone Sander/Polisher that sets a new standard in stone working excellence in granite, marble and concrete. Designed especially for use by shop workers, fabricators and for production use, this high performance polishing tool is ergonomically designed for ease of use. The compact, lightweight design gets into tight spaces with ease, and allows for all-day use with less operator fatigue. The PLW 923 S Air Stone Sander/Polisher features a central water feed with rear exhaust and accepts 3", 4" or 5" discs.

SPECIFICATIONS	PLW 923 S
Spindle Size	5/8"-11
Max. Speed	3,600 RPM
Weight	2.8 lbs.
Length	9-1/2"
Air Consumption	15.19 CFM
Air CInlet	1/4"
Hose Size	1/4"
Air Pressure	90 PSI

STANDARD EQUIPMENT	
4" Velcro® Pad	357.251
Bail handle	357.138
Side handle	357.200
Wrench	357.162

LW 603 VR

253.692

Electronic 5" Variable Speed WET Polisher

The most cost-effective and sophisticated WET polisher. Infinitely adjustable polishing speeds (1,000-2,800 RPM) make this product ideal for very sensitive materials and offers users maximum flexibility. The LW 603 VR is a two-handed tool and is commonly used as a large surface polisher.

Velcro™ backing pads and diamond resin polishing pads are to be purchased separately.

SPECIFICATIONS	LW 603 VR
Max. disc diameter	5"
Speed, without load	1,000-2,800 RPM
Power input	13 AMP
Weight	7.5 lbs

STANDARD EQUIPMENT	
1 bail handle	251.587
1 open-ended wrench 17 mm	106.461
1 GFCI operator protection circuit breaker in cable	356.611

LW 603 VR ADVANTAGES AT A GLANCE

- FLEX four-fold VR electronics: with consistent speed control by tachometer generator, soft start, overload protection, and speed selection.
- GFCI operator protector circuit breaker: integrated in cord
- Quality shut-off carbon brushes: protects the motor against damage

Sanding discs/polishing pads are to be purchased separately.

MXE 1102

390.860

1080 Watt Two Speed Mixer With Speed Control

FR Full-wave electronic control with soft start, temperature monitoring, overload protection and accelerator switch for a controlled run-up to the optimum mixing speed. Sustained power in all ranges. Large, rugged 2-gear unit with optimum ratios for powerful torque and correct speed for different materials. Ergonomic handles on the drive unit. Low weight, fatigue-free arm posture and upright body posture allow comfortable, ergonomic operation. Second gear provides exceptional sustained power in the top and low speed range. Ideal for tile adhesive, grout, filler compound, adhesive, finished plaster, adhesive mortar.

SPECIFICATIONS	MXE 1102
Speed without load-1st gear	150-530 RPM
Speed without load-2nd gear	200-750 RPM
Power input	1010 watts
Power output	600 watts
Tool fixture	M14
Clamping neck	1.7"
Max. mixing head	5.12"
Weight	11.7 lbs.

STANDARD EQUIPMENT

1 WR2 helix paddle 120x600 M14	368.881
1 open ended wrench SW19	

MXE 900

390.879

900 Watt Single Speed Mixer

Large, rugged single-speed gear unit with optimum gear ratio for high torque. Soft start accelerator switch smoothly adjusts the speed to the mixing situation and material. Ergonomic handles on the drive unit. Low weight, fatigue-free arm posture and upright body posture allow comfortable, Perfect for mixing low-quantity mixtures. Mixing paddle for pasty to tough materials including tile adhesive, grout, filler compound, adhesive, finished plaster ad adhesive mortar. Ideal for tilers and painters.

SPECIFICATIONS	MXE 900
Speed without load	200-750 RPM
Power input	900 watts
Power output	520 watts
Tool fixture	M14
Clamping neck	1.7"
Max. mixing head	4.72"
Weight	11.3 lbs.

STANDARD EQUIPMENT

1 WR2 helix paddle 120x600 M14	368.881
1 open ended wrench SW19	

Accessories for the MXE 1102 and MXE 900 Concrete Mixers

Stainless Steel Vacuum

VC 12

398.403

Stainless Steel Vacuum

The new FLEX Stainless Steel Vacuum delivers the rugged durability and professional performance you need for garage, shop, factory, workshop or office. Stainless steel tank is easy to clean and features a tank drain that lets you empty the tank without lifting the vac. Super quiet performance for use in a variety of office, hospital and school environments. Comes equipped with static guard strap and full dolly with tool holder.

ADVANTAGES AT A GLANCE

- Super Quiet Operation.
- Tank drain lets you drain water without lifting the unit.
- Variety of 1.25" accessories available.
- Stainless steel for extra durability
- Static guard strap
- Fully dolly with tool holder
- Extra outlet on vac for power tools

FLEX North America limited

ONE YEAR WARRANTY

FLEX North America warrants its Professional Power Tools for a period of one year from the date of original purchase. The PLW 923 S Air Stone Sander/Polisher has a 90 day manufacturers warranty. Pneumatic Tools carry a 90 day warranty from the date of purchase. We will repair or replace at our option, any part or parts of the product and accessories covered under this warranty which, after examination, proves to be defective in workmanship or material during the warranty period. For repair or replacement, return the complete tool or accessory, transportation prepaid, to your nearest Authorized Service Station. Proof of purchase may be required. This warranty does not apply to o-rings and driver blades, or to repair or replacement due to misuse, abuse, use of electrical converters, normal wear and tear or repairs attempted or made by someone other than our Authorized Service Stations.

ANY IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE, WILL LAST ONLY FOR ONE (1) YEAR FROM THE DATE OF PURCHASE.

To obtain information on warranty performance please write to:

FLEX - North America, Inc.

www.FlexNorthAmerica.com

THE FOREGOING OBLIGATION IS FLEX NORTH AMERICAS SOLE LIABILITY UNDER THIS OR ANY IMPLIED WARRANTY AND UNDER NO CIRCUMSTANCES SHALL FLEX NORTH AMERICA BE LIABLE FOR ANY INCIDENTAL OF CONSEQUENTIAL DAMAGES.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitation of exclusion may not apply to you.

This warranty gives you specific legal rights and you may also have other legal rights which vary from state to state.
